Dear Ms. Girven:

This letter is in reference to the above-captioned minor change application filed by HFR to change the licensed daytime-only operation transmitter site, tower height, and efficiency; and our October 28, 2019, deficiency letter requesting a curative amendment to eliminate prohibited overlap with station WTNT(AM) to avoid a dismissal of the application.

As of today, we have not received the requested amendment. Accordingly, the application (File Number: BP-20190830ABB) IS HEREBY DISMISSED as unacceptable for filing.¹

Sincerely,

Son Nguyen

¹ In the Public Notice entitled "Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications", FCC 84-366, released August 2, 1984, the Commission indicated that it would reinstate applications nunc pro tunc where the original application was returned and where a relatively minor curative amendment was filed in conjunction with a petition for reconsideration within 30 days of the date of the dismissal. Any amendment filed later than 30 days will be returned as untimely. See 47 U.S.C. § 405, 47 CFR § 1.106(f). In this regard, it should be emphasized that the above deficiencies were discerned after a preliminary study of the application. A detailed review was not made of the entire application to determine whether other deficiencies exist which would preclude acceptance for filing or result in a subsequent dismissal. Inasmuch as the applicant will not be afforded a second opportunity to correct another deficiency, the applicant is encouraged to carefully review the entire application.
